EU-Declaration of Conformity

in accordance with EU-Directive 2014/34/EU
on equipment and protective systems intended for use
in potentially explosive atmospheres

We declare under sole responsibility, that the products listed below are in compliance with the requirements of EU-Directive 2014/34/EU and that these products are not stand alone devices, but are intended for installation as a part of a machine or system, whereby operation is prohibited until such time as it is ensured that the machine or system, in its entirety, is in compliance with the EU-Directives.

Float-type Flowmeter, Series RVM/UA-2 30x70

The flowmeter is used for measuring and monitoring the continuous volume flow of liquids and is suitable for use with explosion-proof limit contacts with the designation SEM-A and / or SEM-E (Type –examination PTB 03 ATEX 2154 X).
A separate Declaration of Conformity exists for these contacts.

The float-type Flowmeters of the RVM/UA-2 30x70 series comply with the requirements of EU-Directive 2014/34/EU and are categorized as follows:

Interior of the Flowmeter:

Equipment-group II, category 2 G, for gases of gas group IIB, temperature classification T5, T6

Marking: Interior Ex **II 2G Ex h IIB T5, T6 Gb**

Exterior of the Flowmeter:

Equipment-group II, category 2 G or 2 D, for gases of gas group IIC or combustible dust IIIC, temperature classification T5, T6 or T100°C, T80°C

Marking: Exterior Ex **II 2G Ex h IIC T5, T6 Gb**

Ex **II 2D Ex h IIIC T100°C, T80°C Db**

During the conformity appraisal procedures, it was found that no effectual ignition source is existent, if the device is employed and operated as intended and in compliance with all requirements of the operating instructions for RVM/UA-2 30x70 module BASICS and RVM/UA-2 30x70 module ATEX. Meister Strömungstechnik GmbH therefore affixes the Ex-marking under its own responsibility.

Conformity of the described product with Directive 2014/34/EU is proven through full compliance with the following standards:

Harmonized European standards:

DIN EN ISO 80079-36:2016
Explosive atmospheres - Part 36: Non-electrical equipment for explosive atmospheres - Basic method and requirements

DIN EN ISO 80079-37:2016
Explosive atmospheres - Part 37: Non-electrical equipment for explosive atmospheres - Non-electrical type of protection constructional safety "c", control of ignition sources "b", liquid immersion "k"

EN 1127-1:2019
Explosive atmospheres - Explosion prevention and protection - Part 1: Basics concepts and methodology
